

Proposed rates: Effective August 2018

UNM Mass Spectrometry facility

Waters LCT-Premier system (*Ionization methods: ESI, APCI, APPI*)

<i>Description of service</i>	<i>UNM investigators</i>	<i>Off-campus non-profit institutions or federally funded programs</i>	<i>For-profit institutions</i>
Exact mass determination (high-resolution)	\$25/sample	\$40/sample	\$75/sample
Low resolution scan	\$15/sample	\$25/sample	\$50/sample
Rush sample analysis (emergency turnaround request)	\$50/sample	\$80/sample	\$150/sample
Problematic samples needing mass spectrometric method development	\$100/sample	\$160/sample	\$300/sample

RATES ARE SUBJECT TO CHANGE
